EXPERIENCE

NOVEMBER 2023 - APRIL 2024
ALMATY

Marketplace - Freelance

Astana IT Group

Develop marketplace for Astana It group, like Technodom. My tasks included database, architecture design and frontend development, all components were written by ourself, and AntDesign was used for the admin panel.

- Next Js, Tailwind, AntDesign, Redux.

JANUARY 2023 - JULY 2023
ALMATY

Edukey/EduCode

I was making landing page of their website. Whole design and layout was made by myself, and there were some functionalities written by 'Nuxt Js'.

But unfortunately this place was closed, reason is low budget.

- Nuxt Js, Tailwind, AntDesign

INIT.KZ

AUGUST 2024 - DECEMBER 2024
ALMATY

- Next Js, TypeScript, MUI

Till today

PROJECTS

CANTEEN MANAGER

Developed a back end application with a PostgreSQL database and a Golang backend, containerized using Docker. The backend, built with Gorilla Mux and Logrus, features a robust API that handles user authentication, order management, and admin operations. Implemented secure session management and role-based access controls to ensure data integrity and user privacy

Stack: Golang, PostgreSQL, Docker

Kahoot

Implementation of multiplayer Kahoot quizzes on Java FX using Sockets. Functionality: creating own quizzes, and reading quizzes from txt files, multiplayer passing of quizzes

Stack: Java, JavaFX, Sockets

EDUCATION & CERTIFICATIONS

Bachelor of Information-Systems
Suleyman Demirel University - Almaty
Expected 2025

SKILLS
